

CEPSO

COURSE FOR CERTIFIED ENVIRONMENTAL PROFESSIONAL IN SCRUBBER OPERATION

Organized by
Master Jaya Greentech
Sdn Bhd

COURSE INFORMATION

DATE

- 16 - 20 Jan 2023
- 13 - 17 Feb 2023
- 27 Feb - 3 Mac 2023
- 13 - 17 Mac 2023
- 15 - 19 May 2023
- 29 May - 2 Jun 2023
- 19 - 23 Jun 2023
- 31 Jul - 4 Aug 2023
- 14 - 18 Aug 2023
- 4 - 8 Sep 2023
- 18 - 22 Sep 2023
- 2 - 6 Oct 2023
- 16 - 20 Oct 2023
- 30 Oct - 3 Nov 2023
- 20 - 24 Nov 2023
- 4 - 8 Dec 2023

VENUE

Wisma Master Jaya,
20, Level 2, Jalan Taming 3,
Taming Jaya Industrial Park,
43300 Seri Kembangan, Selangor.

COURSE FEE

RM 4,000 + 6% SST
per person

- Including course material, lunch, tea break & certificate.
- Closing Date : 2 weeks before course date.
- Claimable under HRD-Corp SBL-Khas Scheme

TRAINING MATERIAL

- Training Module
- EQA Law Book
- Guidebook on Performance Monitoring
- Calculator
- Bag
- CePSO Jacket

CEPSO COMPETENT TRAINER

Trained over 2,000 CePSO participants since 2006

Puan Norhayati

Dato' Serafin Woo

Dato' Andrew

BENEFITS OF ATTENDING

- Become a Competent Person (certified by DOE EIMAS) to operate and supervise the scrubber operation as per DOE legal requirement
- Comply to DOE Environmental Quality Act & Clean Air Regulations
- Able to conduct Scrubber Performance monitoring follow DOE requirement
- Maximize Scrubber efficiency & ensure smooth operation
- Minimizing unnecessary plant shutdown due to Scrubber problems and non-compliance with DOE standards.

ENTRY REQUIREMENT

Candidate must possess :

- Diploma or Degree in Science or Engineering ; or
- Certificates from polytechnic or SKM with level 2 with 1year experience;
- SPM with 3 to 5 years working experience in scrubber operation

TO ENSURE COMPLIANCE TO DOE ENVIRONMENTAL QUALITY ACT & CLEAN AIR REGULATION, YOU NEED COMPETENT PERSON TO SUPERVISE YOUR SCRUBBER ! GET CERTIFIED THROUGH DOE EIMAS CERTIFICATION PROGRAMME

WHO SHOULD ATTEND

Industry personnel who are in charge of the operation, supervision, maintenance & management of the scrubber at manufacturing plants.

WHAT OUR PARTICIPANTS SAY

- "A very fantastic course, look back before attend the course, I am zero in operating scrubber and after attending this course, I have confidence to operate the scrubber. Thanks for the instructor " - Tan Chooi Kim, ASE Electronics (M) Sdn. Bhd.
- "Trainer is well versed in the topic. The training was well structured and easy to understand with the theoretical and practical knowledge" - Kamil Nordin bin Norzuhdy, TNB Janamanjung
- "Overall the course is good as I have learned the system in details. Now I am capable to operate the system well and increase its efficiency" - Lee Chin Aan, Muda Paper Mills Sdn. Bhd.

COURSE INTRODUCTION

One of the main air pollution control system widely used in the industries in Malaysia for the control of air pollutant is scrubber. The success operation of a Scrubber is primarily in the hands of the operator. A knowledgeable and skilled operator, supervisor or engineer know how to monitor the processes occurring in his scrubber, understand what factors affect the scrubber performance, know what operational conditions are best for his scrubber and how to maintain them, know how to respond to upset conditions, understand the social obligations and legal implications for non-compliance.

Successful operation of a scrubber is an integral part of the operation of a successful industry. A trained and skilled scrubber operator, supervisor or engineer is not anymore a luxury but rather a must-have to the industry. Good environmental performance not only portray positive corporate image, but avoid possibility of factory downtime and hefty monetary penalties due to legal actions from the environmental authority. EIMAS is providing a training program to train your scrubber operators, supervisors and engineers to be competent in operating scrubber particularly in conducting performance monitoring of the scrubber. The competent person will ensure that the scrubber is operating optimally.

This unique training course which focuses on hands-on approach is in fact the only one of its kind in Malaysia. A Certificate of Competency will be awarded to participants who successfully completes the course, passes the examination and submits a field training report.

OBJECTIVE

- Effective scrubber performance monitoring and preventive maintenance
- Proper scrubber operation to ensure smooth production
- Cost reduction in maintenance & production down time
- Compliance to DOE Environmental Quality Act & Clean Air Regulations and to avoid penalty

COURSE CONTENT

Day 1

- Introduction of Air Pollution Control System (APCS)
- Introduction of various types of scrubber
- Operating principal of scrubber
- DOE legal requirement

Day 2

- Scrubber Components (Hands-on training)
- Fan introduction

Day 3

- Performance monitoring & Record keeping as per DOE requirement
- Preventive maintenance

Day 4

- Hands-on performance monitoring
- Scrubber common operating problems and troubleshooting
- Case study
- Field training report preparation

Day 5

- Examination (Practical & Written)
- Presentation of Certificates of Attendance

COURSE METHODOLOGY

- Lectures
- Course assignment
- Hands on practical training using industry size scrubber at our Hands-on Air Pollution Control Training Center
- Group discussion

ABOUT THE TRAINER

Dato' Serafin Woo

- Holds a B. Eng. (Hons) Degree in Mechanical Engineering from University of Sheffield, UK and M. Sc. in Environmental Engineering from University Putra Malaysia.
- Obtained extensive knowledge and practical hands-on experience in the industrial air pollution control industry over the past 21 years working in the industry in Malaysia.
- Areas of expertise include training, consulting, designing, project management, manufacturing, installation, testing & commissioning of bag filter dust collector, scrubbers, cyclones, oil mist filters, odour control system, local exhaust ventilation (LEV), ducting, chimneys & fans.
- She has conducted many seminars and training courses on Industrial Air Pollution Control for more than 3000 industry participants and DOE officers since year 2005.
- Closely collaborating with DOE & EIMAS on developing competency certification modules for the DOE's officers and the industry.

Dato' Andrew Leong

- He has worked over past 16 years on many substantial sized projects responsible on the design, consult, sales and marketing, project management, manufacture, installation and commissioning of Air Pollution Control System for various manufacturing and process industries in Malaysia and in the Asean countries.

Puan Norhayati

- Holds a B. Sc. In Biology (UKM Sabah).
- She has 23 years' experience working in DOE in the field of Law Enforcement and Environmental Management.
- She was appointed as Director of DOE Penang State Office in 2014 until her early retirement from Government sector in 2016.
